HONGRONG, NOVEMBER 17TH, 1905.

Two or three years ago, the Chinese Goveriment undertook that all barriers of whatsoever kind, collecting lekin or such like dues or duties, should be permanently abolished on all roads, railways and waterwhys in the eighteen provinces of China | and the three eastern provinces. Exception was, made in the case of native Custom kite is that made by Lieut P. W. P. Smith, R.E., Houses then in existence on the seaboard and waterways, at Open Ports, on land routes, and on the land frontiers of the Empire. It scarcely needs to be added The Peking Times suggests that China's life every 5 hours, a row involving wounds that the numerous inter-provincial barriers are still busy. Viceroy Chano Chin-tung, in a recent memorial to the Throne, seems to have been newly awakened to this fact, as he refers to " the losses and delays and squeezes which the existence of the present numerous barriers represents, minimising morialized the Finance Department to prohibit the profits of the native merchants and this and direct all dollars to be accepted at par; enhancing the cost of living throughout this has led to a modification in exchange. the country. Not only are honest traders losing their business but dishonest ones Hough were to have offered for sale leasehold are being driven to trade under foreign property at Kowloon registered in the flags in order to evade the dues, thus easting | Land Office as Inland Lot No. 413, together severe reflection on the Government and not conferring any benefit on the country.' It is not at all disagreeable to find such an influential native official saying what has been said over and over again in these columns; and what is by this time as hackueyed to every business man in the East as the statement that Barrus was a bad man was to the British schoolboy of another generation. If it rested there, or was directed to the persuasion of Peking to implement its pledges, this Memorial of CHANG CHIH-TUNG'S would elicit unqualified approval. It appears, however, even "shake."

I that he has a scheme involving a substitution rather than an abolition. He would levy the inland dues in one "general tax," such as" (he claims) has been instituted in his own provinces with success. That success, however, is a matter of opinion. According to the Peking Times, "the results have not been reported favourably on by merchants." In any case it has not had many months trial. There seems to have been some encroachment upon the legion of 'squeeze chances." when he says that within his provinces he has "closed 29 lekin stations, retaining 20 general tax offices, and five special lekin barriers, bamboo and wood tax at Yingwuchou, nankeen tax at Changkiangfou, silk tax at Hojung, gypsum tax at Yingcheng and boat tax at Aulu." But at the best it is a sectional improvement only; and does not affect the principle involved. The trouble may be lessened (for the collectorgeneral), the chances fewer (for the "squeezers"), and the delays reduced (for | done. the merchant); but the taxation remains as heavy. Even if he gets his way, and has not have been half met. The old trouble will continue under a new name. That is idi. It is well meant, however; and will probably be recognised as a step in the right direction. > The Daily Express says . The Moscow police ordered the expulsion from the city of a soldier named Schwartz, who had come to visit his parents on his return from the front, on the ground that he is a Jew. Schwartz highly distinguished himself in all the great battles in Manchucia. He was wounded eleven times. several of his wounds being serious, and he received the St. George's Cross on no fewer than three occasions for bravery. One of the crosses was in gold, as a special mark of distinction for his having blown up a Japanese magazine. He was also the recipient of the life saving me al for having resented an officer from drowning in the Yalu.

The following sounds interesting: Mr. Walter Curr, of London, read a paper at the Institute of Marine Engineers, in which he explained the details of an invention which he has just patented for the paeamatic propulsion of ships, The chief advantages which he claims are security from breakdown by injury to propellers, rudders or engines, reduced cost for upkeep and engine-room staff, and freedem from vibration The system is specially applicable, he declares. to vessels navigating shallow and weed-obstructed waters. The increased buoyancy caused by the absence of all machinery, paddles, serews and rudder enables yessels with this system to navigate waters hitherto inaccessible.

Aithough it has been in "working order" to some extent for a considerable time and is already well known, the Osaka Gas Company, Limited, has only just completed the large buildings and extensive plant which are to enable it to supply the whole of the busy city of Osaka, and eventually the surrounding towns and viliages, with a reliable and comparatively inexpensive motive power and illuminant, November 4th was a great day for the company; it had been looked forward to for many months, for the contractors had promised to complete the work by the beginning of November, and this they have not only done, but they have carried out the work to the cutire satisfaction of all concerned. There was a grand inaugurat-"function" on November 4th.

FLOATING MINES: A KNOTTY POINT OF INSURANCE LAW.

The Marine Insurance Market correspondent of the Times, writing on Oct. 11, said . Two German steamers bound from China ports for Viadivostok have been seized by the Japanese. They are the M. Strave and the Hons Wagner. The Japanese have thus seized four steamers this week, and evidently do not intend to nitow Valadivostok or Nicholaievsh to be resupplied with stores until the peace treaty is ratified. These two German steamers were insured in this market against the risks of floating mines, but it is understood that the capture risks were covered in Hamburg. Hamburg has of late been very sceptical as to the intention of the Japanese to exercise their rights of seizure, and has been disposed to laugh at the caution of London. Possibly the record of underwriting here in regard to war risks has not, as a rule been so successful as to command the respect of foreign onlookers. CHINA'S CONFUSED CURRENCY

Vicercy Chou Fu has recently dispatched a oug telegram to Vicercy Chang Chih-tung, in which he emphasised the necessity of arriving at some arrangement and understanding with regard to the minting of tau-cash pieces. provi nees, he said, were being flooded with these coins, which, together with the fact that Chihli and Shantung proposed to prohibit their importation from other provinces and that the price of copper was steadily rising, tended, on the one hand, to cause these coins to depreciate in value, and, on the other hand, to preclude the mints from gaining any profit. At the rate the coins were depreciating a dollar would be worth at the end of the year as much as twelve or thirteen hundred cash, at which rate of exchange it would be impossible for the mint to realise any seignicraye. had secured the parmission of the Board of Revenue to limit the minting of such coins in his own provinces, but such an arrangement could only be temporary. The recent proposal of the Board to mint a new coin of one tael denomination to be exchanged at the fixed rate | Canada, except under the most stringent and of 1.300 cash would only cause greater disturhances of the market. He, therefore, requested the Vicercy at Wuchang to suggest some remedy for the monetary disorder. H. THE BOYCOTT CONFERENCE AT CANTON.

(FROM OUR CORRESPONDENT.

The conference of American and Chinese merchants was resumed on the 14th. Some of the previous day's discussion was repeated, with the result that the Chinese agreed to the proposition that the rights of man are inclienable; but insisted on the withdrawal of the question: "What are Governments established

Mr. Richardson took the Chinese answer to Question Three, and said they must have more specific evidence. Those who had any actua! grievance to complain about should appear. before this conference, and their evidence could be recorded and sent to América. They could not accept hearsay ovidence.

The Chinese said sufficient Svidence had already been sent, through official channels. and there was no need to repeat it. Did the Americans present believe, or dishelieve, that Chinese had been illireated in the States?

Mr. Bolles-We are here to-day acting as your counsel; we are here, to assist you. Whatever you hear people or newspapers say about the American illtreatment of Chinese is only hearsay. What we require is bona-fide testimony which we may send to our Government as received from our clients, with whom we daily do business, -- a detailed report jointly. -signed by us. "

While the Chinese were digesting this "answer," Question Four was taken. The Chinese had already stated that the boycott would be continued until Chinese visitors to America were treated like visitors of other nationalities. They now added: "And Chinese subjects residing in the U. S."-Mr. Richardson" quoted something from an American law book gencerning aliens, leading up to Question Five.

Mr. Richardson said-Admission of aliens

by a country is a power resting with the admitting nation. It has been decided by the Supreme Court of the U.S., in the Fong Yue-tin case, that the power "to exclude" or "expel" all aliens, or any class of aliens, absolutely or unconditionally is an inherent inalienable right of every foreign and independent nation, is yested in the United States Government, and is to be regulated by treaty or by Act of Congress; and the power "to exclude "or "toexpel" are but parts of one and the same power. In the section of the Declaration of Independence read to the conference yesterday, one of the inalienable rights was stated as "the pursuit of happiness." Now, to the greater mass of the American people, the free admittance of Chinese labourers would interfere with the pursuit of their bappiness, because the Chinese labourer would work for a small percentage of the wages of the American labourer; also hedges not live up to the American standard. He does not expect to reside permanently in America and retain his wealth therein. Therefore in view of the inherent right to do so the American nation sees fit to use its power to "exclude" the Chinese labouring class, which attitude the Chinese are at liberty to adopt towards the American labouring class coming to China == The desire of the Chinese sceins to be that they only wish to be under the immigration and quarantine laws of the United States. There is no desire on the part of the United States of America to exclude merchants, students and travellers for curiosity or pleasure. It might be useful for us to state that America does not stand alone or as an isolated country in prohibiting the entry of Chiuese into its confines; to explain we may mention that Chinese labourers are not admitted into Australia or New Zealand or rigid regulations, and also in South Africa except

The Chinese Vice-Chairman said they knew all about the exclusion of Chinese labourers from Australia, New Zealand, and Canada, and their treatment in South Africa. They had not met to talk of these, however. This was an American boycott, and they had better settle one thing at a time. They (the Chinese) would attend to

under very hard regulations.

The proposal to sign a joint report from this Conference, to go to the American Government, was mooted again. A mistake in interpretation gave the Chinese the idea that it would look like a polition to the American Government; and this they hotly repudiated. Mr. Bolles patiently explained the difference

he had no doubt his Government would do their utmost "to assist the Chinese." The Chinese Chairman hereupon suggested

that any points remaining should be discussed in correspondence; but on the amendment of Mr. Richardson, it was decided to leave the rest

The Chinese provided refreshments this time and sent a guard of thirty soldiers to escort the Europeans to the Shameen.

IN SUMMARY JURISDICTION. BEFORE MR. A. G. WISE (PUISNE JUDGE).

CLAIM FOR DAMAGES. The Chinese Printing and Rublishing Co., Ld., chimed from the Kwai Mow firm the sum of \$38850 for damages sustained by reason of the defendant's failure to take delivery of and pay for 1,500 lbs of Chinese types made by the plaintifs to the defendants' order.

Mr. A. Holborow (of Messrs, Deacon, Looker and Dacon) appeared for the plaintiffs, and Mr. C.E. H. Beavis (of Messrs, Wilkinson and Grist) represented the defendants.

Mr. Holborow stated that the plaintiffs supplied the type on the order of the defendants, who reinsed to take delivery, when requested to do so. His clients sold the goods by auction, and credited the defendats with the amount realised.

Ng Ting Pan, chief accountant of the plaintiff company, said that on the 13th April of this yar a foki from the defendant firm called on him and ordered the type, for which a written order was given. His firm manufactured the type, and when it was made the defendant firm was informed of the fact. They did nothowever, take delivery. At the end of the month he sent his shroff with the bill for the type. Semedays afterwards a foki of the defendant firm alled on witness and said the type was for the Swatow Daily. Witness said he knew notthingshout the Swatew Daily; his order was from the defendant firm. In all he sent four bills, but the amount was not paid. It was subsquently; agreed by the defendant firm that they should pay the plaintiffs \$150 compenation and allow them to retain the goods. Witness gave them ten days in which to come to this arrangement. When this time had clapsed and the shroff of the plaintiff firm went to collect the money from the defendants he returned and said they r.fused to-pay. The amount was not paid so witness instructed the audiencer to tell the type which realised \$165.

of business, and the plaintiff company was saccorsful under his management. All proper contracts did not necessarily have the dates on them, but the price was always inserted. The order before the court was not a proper contract. The ore in which the Kwai Mow agreed to Luchose the type in question was only verbal. After hearing further evidence his Lordship gare judgment for the defendants with costs.

The fact that, while the tonnage mentioned is an increase of about 120,000 tons over the corresponding figure for the previous year, the number of vessels represented is actually smaller, draws attention to the continued tendency towards the building of still larger vessels. Hongkong, 13th November, 1905. The aggregate measurement of the vessels at present classed in the Society's Register Book amounts to 18,250,000 tons; During the year, nearly 820,000 tons of steel

for use in the construction of ships and boilers were tested by the society's surveyors. The Committee of Lloyd's Register have been giving much attention to the subject of the donth of loading allowed by the British Freeboard Regulations. As the result of their

deliberations, the committee have arrived at the conclusion that the Freeboard tables can with safety be amended to admit of deeper leading for certain types of vessels, and they have laid their views on the subject before the Board of

FRANCE AND GERMANY. KAISER'S INDIRECT ULTIMATUM.

BRITAIN'S OFFER,

A Central News telegram from Paris said the Figure published a lengthy article on the subject of the disclosures made by the Matin with regard to the Moroecanjorisis, and dools particularly with the alleged offer by Great Britain to come to the aid of France in case of German aggression, as to which, the writer says, that if the offer was never actually put BECHSTEIN. into words there was at any rate a perfectly clear understanding between the two Govern-

ments. The Figure gives the following story of what actually happened; Before the actual Morcocan crisis arose in the

year following the conclusion of the Franco-British treaty concerning Morecco, the British Government on three separate occasions approached French diplomatists with the object conclude a definite treaty of alliance with Great AND OTHER FAMOUS AND of discovering whether France was disposed to

Out of regard for the situation of Russia, who was then implicated in a war with an ally of Great Britain, France declined even to consider the question. When, however, the Franco-German crisis became scute French statemen The total number of operatives employed at again brought up the matter for consideration,

M. Cambon informed M. Delcasso that the moment such action seemed justified Great Britain would repeat this assurance in writing. The author of the present article was informed part female labour plays in Japinese industries, from a highly sufficritative source in Berlin that details of these steps were conveyed to the Goiman Government by Count Metternich about the middle of May.

The Kuiser at first hesitated, uncertain what action to take, but on Monday, May 29, he, received news of the Russian disaster in the Tsushima Straits, and immediately decided to strike a blow at any France-British coalition before it became possible to renew the activity of the Anglo Japanese alliance.

The Emperor caused information to be conveyed to the Italian Government that the conclusion of a treaty guaranteeing mutual military support between France and Great; Britain would constitue a causus belli. This step was undoubtedly taken as an indirect means, of conveying an ultimatum to France, while leaving open the door to peace.

Italy communicated the warning to the French Ambassador at Rome, who transmitted it to Paris. This was on Sunday, June 4. On the following day the resignation of M. Delcasse was decided upon. On the 6th the historic Council of Ministers took place, at which M. Delcasee sought to convince his colleagues of the certainty of British support. "I have formal assurance of British support,

said M. Delcasso. He was about to take a document from his portfolio when M. Rouvier said, " I have received a telegram from M. Barrere proving that it FITHE HONGKONG STEAM WATER. means war if we continue on the lines of your policy. Each of us here must take his own ANY QUANTITY of PURE FRESH share of responsibility. For my part, I refuse WATER to the Shipping, both for Deck and to proceed with what seems to you so easy.' Addressing himself to each Minister individually, M. Rouvier asked whether they preferred

war or an honourable withdrawal. The vote was unanimous against the Foreign Minister. With regard to the alleged offer of England to land 100,000 men in Sobleswig-Holstein is the case of a Franco-German conflict, the Echo de Paris says, according to the Central News, that the German officers smile at the idea. In face of the colossal defensive works of Germany, the idea must have sprang from the

brain of a diplomatist. No military man would have conceived it. The Echo goes on to say that England, has less risky and more effective means of aiding France, but it is not advisable to say what they

TORTURES AVERTED.

STOMACH TROUBLES OF TRANSVAAL WOMEN CORED BY USING MOTHER SEIGEL'S SYRUP.

Science knews no nationality, its revelations bonefit all mankind. For instance, the discovery and use of chloroform has averted a world of pain, of physical anguish, among people of all countries. It is not too much to hope that Science, aiding the community of interest, is destined finally to bring about universal brotherhood. When critically examined, differences between the races, prove far less important than is generally supposed. The blood of a Kaffir and the blood of a white man look just alike under all scientific tests. Nearly all of the best-known diseases find their victims among all races; and Indigestion, in particular, afflicts the miner and the mountaineer, the millionaire and the labourer, indifferently, Both sores, of every age and occupation, are liable to it, and its prevalence is the cruse of

much pecuniary loss and distress. Science has provided an antidote to Indigestion-ind the long train of ills that follow i when unchecked-in Mother Seigel's Curative Syrup. Among people who have proved this by actual experience is Mrs. S. Brown, of 6, Park Street, Jeppestown, Transvasi, who prote thus on February 6th, 1905; "I first made the acquaintance of Mother Seigel's Syrup in the old country, cleven years ago, and it was a fortunate day for me. I suffered intense pain in my chest and stomach, and dreaded to eat, knowing full well the torture that would soon follow. Days of pain were followed by restless nights, and I seldom obtained more than two or three hours of sleep at u time. This continued for about a year, when began to take Mother Seigel's Syrup. was benefited by the very first dose. Continuing its use, I was soon completely oured, and from that day to this my health has been

"I was always faint, and the least exertion was too much for me, various doctors prescribed for me and several patent medicines were tried, but my health got no better. When, however, I tried Mother Seigel's Curative Syrup there was at once a change for the bet-The faintness and heart-palpitation cessed. Now, thanks to that grand remody, my health is all I could wish it to be". The fact is, Mrs. Harth suffered from an effect of neglected indigestion.

So, t o, did Mrs. Anus Smith, of 7, McIntyre Street, Mrs Harth's neighbour in Jeppestown, who said (February 6th, 1905): " For a long while I was troubled with a severe cough, pains at my chest and back, want of appetite, and sleeplessness. All this implies indigestion, which only Mother Seigel's Syrup will cure. Four bottles of that medicine-obtained from Mossrs. A. J. White (Colonial), Ltd., corner of Princes and Diesal Streets, Port Elizabeth, C.C.—disposed of all my trouble, and my health is now quite satisfactory.

CROWN AGENTS. ANOTHER STRONG INDICTMENT.

ALLEGED JOBBERY AT SINGAPORE.

The Straits Times of Nov. 6 repeats that the Crown Agents have decided to refuse to allow any local contractor to tender for work on the proposed harbour improvements. A representative of the Straits Times has interviewed Mr. Walter Palliser, who is one of the most prominent contractors in the Straits. Mr. Palliser admits that he desired to make a bid for such portions of the work as came within his own and his local competitors' purview. With that object in view, he sought to have his name included in the list of contractors recognised by the Colonial Office and the Crown Agents. That journal goes on: This, we may add par paranthese, meant poking his note into a very select family konget.

NOT EVEN A SUB-CONTRACT FOR SINGAPORE. Mr. Palliser has, however, no reason to think that his application in that respect has been refused. He has, however, been informed by Mr. Matthews -the senior partner of the firm of Coods Son and Matthews-that it would be useless for him to tender for any portion of the work. Mr. Matthews further informed him that the entire work would be arranged at home, and that it was decided that no sub-contracts would be awarded locally. In fact a clause had been inserted in the provisional agreement prohibiting the Home contractors from sub-letting their contracts, or any portion of the same, to local operators. We learned these fact indirectly, but on unquestionable authority. GUARANTEES USELESS IF YOU ARE NOT

IN THE KONGSI. On Saturday we interviewed Mr. Pallisor. This is what he said :-

a copy of the plans and specifications of the proposed new works with a view to tendering for the same.

"I had previously made arrangements to give guarantees for my bona fides for million

"On the head of that arrangement, I said to Mr. Matthews that, provided I could furnish him with any required financial guarantee, would my tender for any portion of the works be considered.

"Mr. Matthews said :-" No tenders will be considered save from contractors on the Admiralty List of whom eight have been already asked to tender." " Of these," Mr. Palliser added to the interviewer, "I believe only six are responding."

NO LEAKAGE OF PROFITS TO BE ALLOWED. "I then said to Mr. Matthews that it would probably be better for me to wait and learn who the successful Home tenderer might be so that I might be able to approach him with a view to securing sub-contracts on some of the work.

"Mr. Matthews then said :- "A clause will be inserted in the contract prohibiting the successful tenderer or tenderers from sub-letting any portion of the work."

"I then left him." HOW TO TREAT COLONISTS. That is all Mr. Falliser had to say. He added, however, that as a contractor, he could not well afford to fall out with high authorities and he would prefer that his name were left out of the controversy. On its bring explained to him that the incident affected the entire trade men who, like himself, settle down in the tropics and work for the Empire on its marches, he consented to let his name be used. and visaed as correct the above-quoted interview. No people on earth are more clever in taking advantage of European ignorance of local conditions than are the Chinese Singapore Kranji Railway). No people have displayed more aptitude its being galled by those contractos than the engineers, alleged and otherwise, sent out to the East by the Crown Agents. The agents themselves may say, and they can say, that the commission they receive on colonial business is small; but they cannot say that the profits of the firms they employ-who are all in the family, God

bless 'em-have gone hungry in many days. WHAT IT ALL MEANS. Now we begin to see why it comes about that-despite the condition of financial depression in the Colony, despite the strenuous opposition of everybody connected with shipping or with rate-paying in this Settlement, men who say that moles in the tideway will stop the scour and bedevil their anchorages, despite the officially worded protest of every firm connected with the European Chamber of Commerce, despite—despite more matters than could be enumercted here-Government has decided to push through Messrs. Coode, Son and Matthews' Harbour"Improvement" Scheme. The only cogent reason that can be assumed for this decision is that it has been taken for the pecuniary benefit of the Crown Agents
